Al Gharbīyah, 31652, Egypt

Passionate Frontend Developer with expertise in React, JavaScript, and UI/UX Design, dedicated to building visually appealing and high-performing web applications. Strong problem-solving skills and a deep understanding of modern frontend frameworks, responsive design, and user experience optimization. Experienced in collaborating with backend developers to create seamless and interactive web applications.

Work Experience

Frontend JavaScript   Nov 2024

Fetch API | Egypt

A JavaScript project that retrieves and displays real-time data from external APIs, showcasing dynamic content loading and asynchronous request handling.

Frontend developer   May 2022

Azan App | Cairo

A web application that provides accurate prayer times based on the user's location. Built using React.js, the app dynamically fetches real-time prayer schedules and displays them in a user-friendly interface. It ensures responsiveness and a smooth user experience, making it an essential tool for daily prayers.

Projects

Login Form with React   Dec 2023

A secure and responsive login form built with React.js, featuring form validation and user authentication for a seamless login experience.
